SUBJECT: Statement about Reach Regulation and SCIP database management.

The European Regulation 1907/2006 REACH of 18/12/2006 concerning the Registration, Evaluation, and Restriction of Chemicals (REACH) defines the **Article** as "an object which during production is given a shape, surface or design which determines its function to a greater degree than its chemical composition". According to this definition, semi-finished products manufactured by EURAL GNUTTI S.p.A. are classified as articles.

ECHA has established that, from 05/01/2021, all producers, assemblers, importers or distributors of articles in the EU will have to notify to the SCIP database only if their articles contain SVHC substances included in the "Candidate List of REACH" in concentrations above 0.1% weight by weight.

Lead (Pb), present in some of our aluminium alloys, is one of the substances for which SCIP notification is mandatory.

Eural Gnutti S.p.A. has performed the SCIP notification of its articles manufactured with alloys containing Pb, grouping them into "alloy groups".

The following table shows the SCIP number for each notified alloy group:

Alloy	SCIP number	Submission number
2011	74886de5-6288-4577-9019-4fcabada63a9	CKU665509-16
2007	d08555d9-d2df-4084-b157-182c0dfe2d4c	CKU471168-20
2030	be27d71d-4032-4c73-8c76-bd81bdac9f49	CKU162839-23
6262	ad11f350-b80f-45f6-bd33-cbdbfea95919	CKU067756-15
6064A	1f580c9d-160e-40b0-856d-543c3851f5f8	CKU336815-22
6026	e99397d8-c0df-43ca-88f1-e5c9496e83e1	CKU812626-21
